HTML, CSS

SOFT SKILLS

Clean code and software
craftsmanship
Interest in accessible UI design
Agile project management
English: professional proficiency
(TOEIC: 940/990)

WORK EXPERIENCE

since 2021 ● **SENIOR FRONTEND ENGINEER**
OpenClassrooms

- Operate as frontend engineer in multidisciplinary squads.
- Key projects I worked on:
 - Integrate the Vonage API to create a visio-conference tool
 - Develop a talent marketplace to showcase students looking for an apprenticeship
 - Migrate most of the mentorsip environment from Twig to React/TS
- Mentored students on the paths "Frontend Developer" (RNCP level II) and "Web Developer" (RNCP level III).

React - TypeScript - ReactQuery - TestingLibrary - Storybook

2020 - 2021 ● **INDEPENDENT SOFTWARE ENGINEER**
Freelance

- Boost technical teams to accelerate the features development, helped them reach their business goals, and promoted coding best practices.
- Design, develop and maintain websites for SMB.
- Give masterclasses or training in schools about front-end development, React, Storybook...

React - TypeScript - Jest - NextJS - Jamstack

2019 - 2021 ● **JAVASCRIPT TECH LEAD**
Troopers Web Republic

- Led projects from brief analysis to delivery, helping clients prioritize features based on the Agile principles.
- Developed JavaScript features, both frontend and backend, and provided training on JS technologies.
- Shared and harmonized development practices, including architecture, testing, and documentation.
- Mentored two developers on their apprenticeship.
- Got involved in the shared governance and energized structural roles.

React - NodeJS - TypeScript - GraphQL - Storybook - Cypress.io - Jest - NextJS - Jamstack

2017 - 2019 ● **FRONTEND ENGINEER AND SCRUM MASTER**
The Fork, by TripAdvisor

- Developed TheFork Manager, the B2B webapp for restaurant management.
- As a member of the core frontend team I was also in charge of creating the E2E Cypress test suit, and crafting the B2B component library, documented with Storybook.
- Helped my 9-member team, based both in Nantes and Paris, to adopt an agile mindset and take ownership of the Scrum framework..

React - Redux - GraphQL - Storybook - Cypress.io

2014 - 2017 ● **JUNIOR FRONTEND DEVELOPER**
iAdvize

- Developed various frontend features for iAdvize web apps: the operator desk, the administration back-office, and the conversation widget.

React - Storybook

“

Hi! I'm Johan 🙋

I'm a software engineer who uses JavaScript to create impactful products, that benefit humanity and promote a better world.

My methods are inspired by lean, agile and software craftsmanship, to develop the right product the right way, with a focus on keeping the end-user at the center of the design process.

PROFESSIONAL DEVELOPMENT

- 2021 ● **FULL-STACK PRODUCT MANAGER LEVEL 1**
Thiga Academy
- 2020 ● **DEVELOP ACCESSIBLE WEBSITES, COMPLIANT WITH RGAA STANDARD**
Orsys Formation
- 2018 ● **CERTIFIED SCRUM MASTER**
Scrum Alliance

EDUCATION

- 2014 ● **MSC SOFTWARE ENGINEERING**
(DIPLOME D'INGÉNIEUR INFORMATIQUE)
Université de Technologie de Compiègne
Erasmus semester: Sofia, Bulgaria
- 2011 ● **TECHNICAL DEGREE IN SOFTWARE DEVELOPMENT** (DUT INFORMATIQUE)
IUT Amiens, Université Picardie Jules Verne

VOLUNTEERING

- 2017 - 2019 ● **PROJECT COORDINATOR AND BOARD MEMBER**
Mixed Roller Derby from LA
Roller derby is a contact team sport on roller skates I've been practicing since 2014. As a project coordinator, I was in charge of synchronizing the volunteers' projects with the vision and objectives of the board.
- 2015 - 2017 ● **SUMMER CAMP DIRECTOR**
Wakanga
Organize summer camps in Brittany for children and teenagers.
